- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Responsive Design
- REST API Integration

Back-End:

- Node.js
- Express.js

Database

- MongoDB
- Mongoose
- PostgreSQL

Low-Code Platforms:

- OutSystems
- Appian

Tools:

- Tools
- Git
- GitHub
- VS Code
- Postman

Professional Summary

Front-End Developer with experience building responsive web applications using HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Experienced in software development through both traditional coding and enterprise platforms, with a strong foundation in UI development, API integration, and problem-solving. Currently focused on creating modern, user-friendly web applications and seeking a Front-End Developer opportunity where I can contribute and continue growing as a React developer.

Work Experience

Junior Software Engineer at UBX Philippines

Dec 2021 to Jun 2026

- Developed and enhanced application features based on client requirements using low-code platforms (OutSystems, Appian)
- Worked with front-end components, data workflows, and API integrations
- Collaborated with cross-functional teams to deliver fintech solutions
- Assisted in debugging, testing, and optimizing business processes

Projects

Car Rental APP

- Node.js, Express.js, MongoDB
- Developed RESTful API for course enrollment management
- Implemented authentication and authorization
- Built CRUD operations for courses and enrollments

Course Booking API

- React.js, Node.js, PostgreSQL
- Developed responsive vehicle booking interface
- Designed mobile-friendly user experience
- Integrated backend APIs for vehicle management

E-Commerce Web Application

- React.js, TypeScript, Bootstrap, Vite
- Implemented product browsing, search, category filtering, and detailed product view pages.
- Integrated frontend data handling and deployed the application on Vercel with GitHub-based continuous deployment.

Education

Full Stack Web Development Bootcamp

- Zuitt Coding Bootcamp – 2021

Bachelor of Science in Mechatronics

- Cebu Technological University
